[Portfolio](#)

Motivated and detail-oriented student with hands-on experience in UI/UX design for web-based applications, including leading the design of a 3D interior design tool as part of a multidisciplinary team. Skilled in Figma, wireframing, and collaborating with developers. Eager to apply creative problem-solving and design thinking in real-world environments.

SKILLS

Design Skills: User-Centered Design · Information Architecture · Wireframing · Prototyping · Usability Testing, Accessibility · Interaction Design

Tools: Figma · HTML · CSS · Illustrator · Photoshop · InDesign · After Effects · Autodesk Maya · GitHub

Languages: English (Fluent) · Russian (Native)

Soft Skills: Teamwork · Time Management · Adaptability · Multitasking

PROJECTS

RoomCraft – 3D Interior Design Tool

Jan – Apr 2026

- Collaborated with developers, defining the full user experience from floor plans to furniture previewing.
- Created wireframes, user flows, and interactive prototypes in Figma; refined layouts based on peer feedback and usability walkthroughs.
- Won the Surge Choice Award for creativity and execution in SFU Surge's StormForge program.

MaPastry Bakery Website (Course Name: Web Design and Development)

Feb – Mar 2026

- Designed a multi-page bakery website in Figma with a cohesive style guide covering typography, color, and reusable components.
- Built responsive HTML/CSS layouts from Figma mockups, iterating on designs through peer feedback.
- Followed accessibility best practices: semantic HTML, alt text, heading hierarchy, and labeled form inputs.

Pet Shelter Website (Course Name: Information Design)

Nov – Dec 2025

- Mapped user flows and wireframes to simplify browsing and adoption pathways, reducing navigation steps.
- Iterated on responsive Figma layouts through peer feedback, refining visual hierarchy and interaction patterns.

VOLUNTEER EXPERIENCE

Science World

Sep 2025

AI Activity Support · Vancouver, BC

- Guided 100+ visitors through an AI-powered exhibit, explaining prompts and facilitating engagement.
- Worked closely with staff members to ensure smooth visitor flow and consistent support.

EDUCATION

Simon Fraser University

Expected Graduation: 2028

BSc, Interactive Arts & Technology

Surrey, BC

- Concentrations: Design & Development for Web & Mobile; Designing Interactions

Fraser International College

2024

Communication, Art & Technology (1st Year)

Burnaby, BC

- Recipient of the Resiliency Award
